Application Narrative

Host Site Overview

Our Vision Statement is to provide a healthy learning environment, in partnership with the community, where all students are prepared to be college and workforce ready; all the while honoring staff commitment, the celebration of student success, and modeling expectations of responsible citizenship.

Our Mission is as follows:

We hold one another, staff and students alike to high expectations. Together we create a safe, positive, and caring learning environment, which produces lifelong learners. We all Matter!

We believe that literacy is empowering and can change lives. This project will allow us to utilize staff in ways to make the reading groups of students we work with much smaller. We expect that these members will work in Literacy with struggling readers.

Summary of Member Duties

The members will be working out of the reading intervention room where struggling readers will come and work in small groups four days a week. Building these relationships is key to their success. They may also be working in the HOSTS program which is a program in which students read with volunteers from the community. This also allows reading groups to be smaller when there are more adults to work with them.

Summary of Member Skills

Members will need to be:

- * able to read and listen critically to others reading
- * able to function in a school setting learning many of the terms and language used
- * be willing to work with our low income students who are struggling
- * Learn what it means to be involved in PBIS School
- * teach expectations and follow through
- * build relationships with students

Volunteer Opportunity Posting

Do you like to work with Kids? Do you like to work in a place where you are supported by caring people? Would you like the opportunity to work with community, staff, and students? Do you want a place where it is good to share your talents? Do you like to work in an environment that uses Hands on Activities? On your off time, do you love the out doors? If you answered yes to any of these questions, then the zip code 98812 might be the very place of service for you. Come be a part of the supportive Brewster Bear Family.

Provide details of two required site-specific trainings you will provide for your member(s).

All staff members engage in various professional development opportunities throughout the school year. The two biggest areas will be PBIS (Positive behavior intervention supports) and GLAD (Guided Language Acquisition Design). These are professional development areas that can be used in various settings.

Recruitment Support

Please list three strategies your organization plans to implement to assist in recruiting.

1. Ask our current personal to be looking around this summer for someone who might fit this area.
2. Post the position on our website.
3. Network with community groups and leaders

Please identify the staff person who will support in the recruiting process.
